

Class of the type Process

- void Execute()
- void AddProcess(Process* const)
- Process* GetProcess(const ProcessType)
- void RemoveProcess(const ProcessType)

Class of the type StepSize

- Double_t ComputeTimeStep()
- Bool_t Check()
- void AddStepSize(StepSize* const)
- StepSize* GetStepSize(const StepSizeType)
- void RemoveStepSize(const StepSizeType)

Specific classes for:

- Intermediate Particle
- Computing ODE
- Solving ODEs
- Computing the density
- Computing inelastic and elastic scattering crossections
